RUSSIA AND JAPAN MAY GO TO
WAR.

The ink was scarcely dry upon the
parchment that contains the records
of the peace congress before the world
seemed to be upon the most disastrous
war that has been known. Russia is
massing troops near the border of
China and is all potent with the old
Tartar Empire of that benighted land.
Its millions of people are restless and
revolution is going forward within its
confines. Political and other condi-
tions are so bad that Chinamen com-
plain about oppression there is upon
them. When those who are used to
to half civilized social and political
relations in life complain, there is
need of reform from some source that
will bring a change from a low to a
higher scale of life.

The Christian world has been en-
gaged in work calculated and intended
to elevate the Chinese to a plane above
anything they have known in their
social life, to very little purpose.
Statistics furnished do not show the
progress in Christian methods that the
work expended would have given in
other departments of Christian and
missionary work. The Chinaman,
from results reported, is joined to his
idols, and to let him alone under the
circumstances would seem to be, from
a rational position, the better mode.

A let alone course, from a rational
review of the results, might save the
lives of some good men whose work in
other fields might give results that
would benefit mankind, but there are
those who seek a crown of martyrdom,
believing that their blood spilt upon
the soil of China will aid the work to
christianize the Chinaman.

Should anything come to the Chi-
naman from Christian effort, it will be
through the work of others, who may
also be martyrs and not because of
blood there is shed by devoted and
Christian people. The arguments that
may come in the near future may im-
press the Chinaman with the potency
of Christian resources that can be ap-
plied to reduce him to more Christian
methods than killing missionaries.

Germany in late years has adopted
the best scheme that has been formu-
lated to christianize the Chinaman by
making the blood of martyred mis-
sionaries aid in civilizing and chris-
tianizing them; which plan has been to
make a conquest of a large slice of
Chinese territory to pay for the waste
made of missionary life, which course
will have a tendency to impress the
heathen Chinese with the value of mis-
sionary blood from a more impressive
source when a German missionary is
killed than Christian ethics contain.

From present appearances, in the
near future there will be causes that
may lead the people of China from the
destruction of Christian missionaries
to an ineffectual defense of the coun-
try they have so long excluded the
world from Japan whose war
with the Flowery Kingdom disclosed
its weakness, is getting ready
for war, presumably with Russia,
whose inroads upon Korea have dis-
pleased the little men of the Island
Kingdom and it is busy preparing on
a large scale its military departments
for war and more particularly is en-
gaged in making ready for action its
naval department, and arm for a con-
test.

The preparation of Japan is without
doubt against Russia as it is known
that it is in trouble with that power
while it is in amicable relation with
other powers.

Its warships will soon appear off the
Korean coast where it will maneuver its
fleet by taking possession of some
Korean seaports that Russia claims
some right to control through diplo-
matic arrangement with the Korean
government which Japan deems a
grievance against Russia because of
rights acquired by it, at the close of its
war with China, from the king of Ko-
rea.

While Japan is displaying its naval
strength off the coast of Korea Russia
will sail a fleet of a dozen or more war
ships, known as its Asiatic squadron,
into the waters occupied by the Japa-
nese which will precipitate war between
the nations.

These threatened war conditions will
largely explain the action of our gov-
ernment when it ordered ships of war
to the coast of China, where interests
may require protection that the ad-
ministration has promised to protect
in the event of war between Russia
and Japan.

Great Britain regards the Transvaal
war as closed and is now giving atten-
tion to matters in the Orient but Oom
Paul thinks otherwise and it may make
more trouble for that power than it
expects before it is closed.

quire the sacrifice of many lives, much
money and more time than is expected
by England to take the final strong
hold of the Boers as the question now
stands, which is unconditional sur-
render and British sovereignty.
In the event of war between Russia
and Japan England will make an ap-
pearance as the ally of the latter which
will precipitate a war between Eng-
land and France as well as Russia,
and in that event a general European
war will in all probability be a result.
And complications may come that
will give the people of the United
States an opportunity to determine
the thickness and quality of their

Should anything serious make its
appearance that would be likely to
lead the United States into trouble
in European matters it may be closed

FINANCIAL
STATEMENT

Proceeds and Expenses of the
Second Schoonmaker
Lecture.

Editor Journal—DEAR SIR: I beg
leave to submit to the public, through
the columns of the JOURNAL, a state-
ment of the result of Mr. Schoon-
maker's lecture for the benefit of the
high school apparatus fund:

RECEIPTS
Advance sale of tickets, Rosen-
thal & Armarko.....\$106 50
Sales at door..... 21 79

Donated by Louis Della Piazz..... 1 00
Total receipts.....\$139 29

EXPENSES.
Mr. Schoonmaker.....\$75 00
Opera house and coupon tickets 28 50
Dodgers..... 4 45
Incidentals..... 1 50
Total expenditures.....\$107 45
Net proceeds, \$31 75.
*Including \$1 50 handed to me by
parties not attending.

I desire to extend to the JOURNAL
and Gazette the thanks of the teachers
for generously donating the regular
printing matter.

Though the sum realized is small, it
will be of much use in starting the
fund by getting a few things most
needed now. On account of the condi-
tion of the school fund, we may have
to appeal to the public frequently to
fit up a laboratory, but we shall en-
deavor, as in the first instance, to give
all the full worth of their money in
the way of entertainment. Respect-
fully,
JOHN EDWARDS BRAT.

Lignite Struck.

At J. H. Brown's coal mine near
Verdi an important strike was made
the last of the week. The indications
for coal had been growing stronger
until at last a ten foot deposit of first
quality lignite was encountered. A
big chunk of the material was brought
to Reno Saturday night. Mr. Brown
will send a thousand pounds of it to
this city to be tested.

Editor on the Road.

Managing Editor Francis of the
Ogden Standard passed through Reno
Sunday night on his way home, having
made a six week trip, by rail and stage,
south from Pioche through Lincoln
and Nye counties, to the Colorado river
and thence to Reno by rail.

The last number of the High School
"Comet" is a splendid issue. A great
proportion of the contents are by high

MAFEKING IS
UNRELIEVED

Special to the JOURNAL.
LONDON, March 20, 4 A. M.—No news has been re-
ceived at the War Office confirming the report of the relief
of Mafeking, but the impression here is that all is right with the
place. The Free Staters have not quite collapsed, having
gathered in great force around Smithfield.

General Buller is preparing to force Biggersburg Range
with 40,000 men. He will engage Botha's force, and the next
news of fighting will probably come from Natal. The leaders
of Africander Bunds will petition the imperial government not
to take away the independence of the Boers. At present there
are 32,000 additional troops for South Africa at sea.

BRYAN SAYS HE
WILL ACCEPT

Special to the JOURNAL.
LINCOLN, Neb., March 19.—W. J. Bryan announced
tonight before the Democratic State convention the platform
upon which he would stand if nominated for the Presidency.
The platform was adopted unanimously. It reaffirms the Chi-
cago platform, denounces the Porto Rico tariff bill, declares
against trusts and imperialism and favors the election of
United States Senators by popular vote. The platform is im-
portant as indicating the action that will be adopted at the
National convention.

Bold Bank Robbery.

Special to the JOURNAL.
SEATTLE, Wash., March 19.—Two men entered the
First National Bank about 2 P. M. and seizing a package of
currency, estimated to contain \$35,000, made their escape.
One talked to the receiving teller while his accomplice passed
quickly behind the counter and secured the money.

A Fearful Condition.

Special to the JOURNAL.
LONDON, March 20.—It was officially reported today that
five million people are starving in India. The situation is the
most appalling of the century and will tax to the uttermost
the charitable resources of the empire.

PERSONALS.

Alf Charlz, the Carson lawyer, is in
town.

Mr. and Mrs. O. W. Patterson are
here from Yerington.

John Blum, a Verdi hotel man, vis-
ited Reno yesterday.

Commissioner Frazer came up from
Wadsworth yesterday.

J. B. Gallagher of Yerington was
among yesterday's arrivals.

H. E. Averill of the Four Hills mine
came in to Reno last evening.

J. M. Cambron of Red Rock is
spending a few days in this city.

Miss Beale Shields left last night
for Winnemucca on a visit to friends.

Miss Reble Kelley is down from
Carson on a visit to General and Mrs.
Tarrittin.

A. W. Keddies returned from a
bicycle trip to his home at Quino,
Plumas county yesterday.

Mr. and Mrs. Ben Schultz of Chicago
are at the Riverdale. Mr. Schultz is
on the staff of the Inter-Ocean.

H. Mitchell, advance agent of the
Sawance River Company, is here ar-
ranging for dates for his company.

Examining the Books.

Expert Louis Bevier began work
yesterday experting the books of the
county officers. The sheriff's office
was the scene of the first work. It will
require a couple of weeks to complete
the task.

Before the snowflakes of autumn are
in the air Reno will be one of the live-
liest mining towns between the high
divides.

A Hot Number.
The coming "Artemesia" promises to
excel the last number in many particu-
lars. The JOURNAL is printing it,
which, if our modesty would permit,
we would say is a guarantee of its ex-
cellent appearance.

Inter-class Field Day.
Next Saturday afternoon the great
inter-class field day will take place at
the race track. This has also a ten
cent clause attached to it. The gate
receipts will be used to pay for track
team uniforms. The event promises
to be the showiest thing, next to
basket ball, seen in this city in many
months.

Training Work.
Coach Brunton is doing excellent
work getting the college athletes into
shape. Mr. Brunton was the Stanford
captain in '98. He is one of the crack-
est sprinters on the Pacific Coast.

Student-Comedians.
The University dramatic club will
produce a two-act comedy entitled
"Mr. Bob." It will be given in the
gymnasium Saturday evening, March
31st. Ten cents admission will be
charged. The proceeds will be devoted
to the reading room in Lincoln hall.

The Co-eds Game.
By-the-way, the long expected inter-
collegiate game of basket ball will take
place in this city the latter part of
April.

It will hardly be an intercollegiate
game either, because the powers that
be down Stanford way have legislated
against the young ladies of that insti-
tution playing the game off the home
campus. That minor difficulty has
been overcome by calling it the Palo
Alto team. It is made up of college
girls and is the old team re-organized.

Sentence Continued.
Yesterday morning was the time set
for passing sentence on George Simas,
but on application of the attorneys the
matter was continued until this morn-
ing at 10 o'clock. The defendant will
have until this evening to file a bill of
exceptions.

My foot was swollen and paining very much, but one good application of Pain Balm relieved me. For Sale by Wm. Pinniger, Druggist."

They Escape Easily.
 Justice Linn established a rather bad precedent the other day when he sentenced the first fish grabber to \$20, which, we are informed, is the minimum fine. If, as is reported, this fisherman and his companions in crime keep on salting down trout and feeding them to the hogs as well as peddling them about the streets, \$20 is no punishment. Won't you please look it to them a little harder, your honor?

OUR VERDI LETTER

A Wide Awake Correspondent Is Heard From Again.

THE FISH QUESTION.

The California Fish Commission should be encouraged by everyone who is at all interested in the Truckee river and its now famous fish.
 It is a well known fact and no argument can refute it, that last year Verdi did not appeal to fishermen as a place where sport of standard quality could be had, for the reason that previous seasons had diminished the number of fish that had reached this end of the stream before the numerous dams east were made impassable, and the dams near Verdi on the west were no exception.
 J. P. Morrill, who has for a number of years conducted a private hatchery here, conceived the idea of overcoming the obstructions of the dams, by petitioning the owners thereof to remedy the defect, and too much credit cannot be given the owners of the dams for the readiness of action they displayed.
 Mr. Morrill then brought the situation to the attention of the California Fish Commission who were in quest of Rainbow trout, and, in consequence, they built a hatchery here and began the taking of spawn, with the avowed intention of replenishing the almost deserted Truckee to the benefit of both California and Nevada, and using the surplus for other streams under their jurisdiction.
 Mr. Morrill and others are fulfilling their duties as citizens in protecting the fish during the closed season from unscrupulous parties.
 How anyone can be so inconsistent as to assert that this is not a benefit to our people and our stream, is beyond the comprehension of an overwhelming majority of our citizens. Good fishing gives to those who make their living by that manner ample recompense for their labors, and brings numerous sportsmen here who gladly and freely spend their money with our citizens for accommodations, etc.
 However sour grapes are usually manifest in the best of vineyards.

SHORT ONES.

District Attorney Williams visited our school last Friday.
 Thos. Pixley is painting and otherwise improving his residence.
 E. P. Babcock of the California Fish Commission, spent Sunday at the hatchery.
 The dance given St. Patrick's eve at Loukey's hall was well attended. Prof. Grignon's orchestra furnished excellent music.
 The Verdi band has recently began giving open air concerts Sunday afternoons from its band stand in the plaza. Its efforts are appreciated by all, as is evident by the number of people who attend.

THE GREATER AMERICA CO.

Musical, Spectacular and Historical Production Given Last Evening.

The Carrington Greater America Company played last night in the opera house before a much smaller house than the excellence of the entertainment justified. The performance opened with a melange of vocal, instrumental and descriptive music, historic, scientific and unique novelty specialties. The music was the best feature. In fact, it was a finished and artistic performance. The stereopticon views were interesting and instructive. The "Drummer Boy of Shiloh" was a great attraction. He made the snare drum talk.
 The second part was a patriotic scenic allegory. It was entitled "Greater America," and was a correct history of a nation told in song, delineation, unique specialty and scenic display.
 The company will play again to-night and deserves a good house.

Over the Hill.

In two weeks the Sunset Telegraph and Telephone Company will begin work constructing a telephone line between Reno and Towles. This will complete a second line between Reno and San Francisco. The line will follow the railroad nearly the entire distance. Work on the line between here and Carson and Virginia City will also be begun soon.

Moved.

The Reno Water, Land & Light company is now occupying its new power house. The lights were supplied from the new machinery last night for the first time. This city has now one of the best lighting plants on the Pacific Coast.

UNIVERSITY STUDENTS OWNED THE TOWN **Handsomely Treated by the Citizens of the Comstock While Inspecting the Mines and Mills.**

The entire Senior class in mines and several special students spent last week in company with Professor Ohas. P. Brown on the Comstock. It is said that they discovered a number of bodies of high grade ores on the supposedly worked out levels of some of the mines. Some suggestions were also made to the mill men which will work a hardship upon the owners of cyanide plants because, if the suggestions are heeded, the tailings will hereafter be valueless. Cheap electric power will hereafter have less attraction. An undergraduate explained to the man who runs the hoist on the O. & C., how etheric force (a la Kaseley) could be used with resultant economy.
 When the class had voyaged as far as Carson on the up trip, they luckily fell in with A. J. McCone, who gave them some valuable information and, although the destination of the foundryman was Gold Hill, he went on to Virginia with them. He interested himself in their behalf to the extent of arranging for their trip through the mines. The afternoon was spent in the O. & C. assay office, the Kinkaid mill and the office of Gotth Haist, the well known mining engineer.
 The next morning Mr. McCone drove up to the hotel entrance in a trap followed by a four-in-hand. The students were taken aboard and driven to many places of interest. The first stop was made at the Union mine, where the machinery and hoisting works were studied. An inspection was made of the air compressors and pumping plant, which is the largest in the world of its kind. From the colossal dump of this mine, Mr. McCone pointed out the works to the north and spoke of the millions spent in mere prospecting, although it was the most commonplace thing in the world.
 The Savage mine was next visited and afterwards the Ohollar mine and mill and the Combination shaft. A ride was then taken over the grade to the Forman shaft. At the conclusion of this jaunt three hearty cheers and the class yell were given for Mr. McCone. Superintendent Ross took charge of the party in the afternoon. He took them through the Ophir tunnel where he lectured them on practical mining subjects aptly illustrating his remarks by object lessons.
 Next day the O. & C. was visited. Many courtesies were shown by Superintendent Ryan. Some time was spent studying the great hydraulic pump which is being used to redeem the lower levels. A trip in a mule car was taken out through the Sastro tunnel. At the exit Mr. Leonard, superintendent for the tunnel company provided refreshments for the students and showed them many points of interest.
 Mr. McCone again accompanied the party Thursday. An extended visit was made to the Fulton Iron works and the process of making large castings was studied.
 The greater portion of Friday was taken up with a visit to the Eureka cyanide plant on the Carson river. At noon, Mr. Woodbury, one of the owners of the plant, was host at a sumptuous banquet, which the boys describe as the most pleasant feature of the trip. At the conclusion of the repast the canyon of the Carson river was made to re-echo with the college yell, given to show how greatly the hospitality was appreciated.
 On the return trip a stop was made at Professor Jackson's cyanide plant in Silver City. Mr. Finlayson, who is in charge of the establishment, is a U. of N. graduate. He took great pleasure in showing the students the plant.
 Every member of the party expresses himself as greatly pleased with the trip, as well as profited. They say that they ran across generosity on the trip which can be produced nowhere except upon the Comstock.

THEIR FIFTH ANNIVERSARY

Foresters Celebrated Their Golden Wedding Last Night.

A banquet and good time generally was the program at the Foresters' meeting last evening.
 A number of novel features were on the program. The reason for the special nature of the gathering was that it was the fifth anniversary of the organization of the court.
 A wood sawing contest for ladies was the first event announced. It was won in 12 seconds by Mrs. Fred Hall. The prize was a china plate.
 Mrs. George Gulling was first to drive a dozen nails and was rewarded with a bottle of perfume.
 George McNeese drove 32 nails in a minute and received a box of cigars in recognition of his artistic ability.
 Next on the program was a guitar solo by Elden McNeese; recitation, Violet McNeese; address "Our Order," W. J. Hedgwick; address, Rev. F. V. Jones. Through the courtesy of H. J. Thyse the company were favored with a number of musical selections on the phonograph.
 Last of all was the banquet, a basket of the good things on the tables found its way to the JOURNAL office.

 DIO is the most up-to-date on the
 Pacific Coast; the fixtures are all
 MODERN and none but EX-
 PERIENCED ARTISTS are em-
 ployed. You can rest assured that
 if your photograph work is done at
 the Riverside Studio it will be fin-
 ished in an artistic manner.

SOLID COMFORT
 And enjoyment is what you get when you smoke one of our La Cubina cigars. For an after-dinner cigar or a soother before retiring, or for a smoke at any hour, there is no cigar that is made that will give such eminent satisfaction for the money as the La Cubina. A good cigar at a reasonable price is in demand, and you can't beat the La Cubina.
